Copper foil shield from RG-6

2x 2n2 MP3-X2 275V  
1x 47n MP3-X2 275V

Piece of scrap double sided PCB  
Masked with sticky-tape and etched

Original windings were damaged during disassembly.

Each inductor is 14 turns.

Original core has been reused.

Original wire is thinner than this.

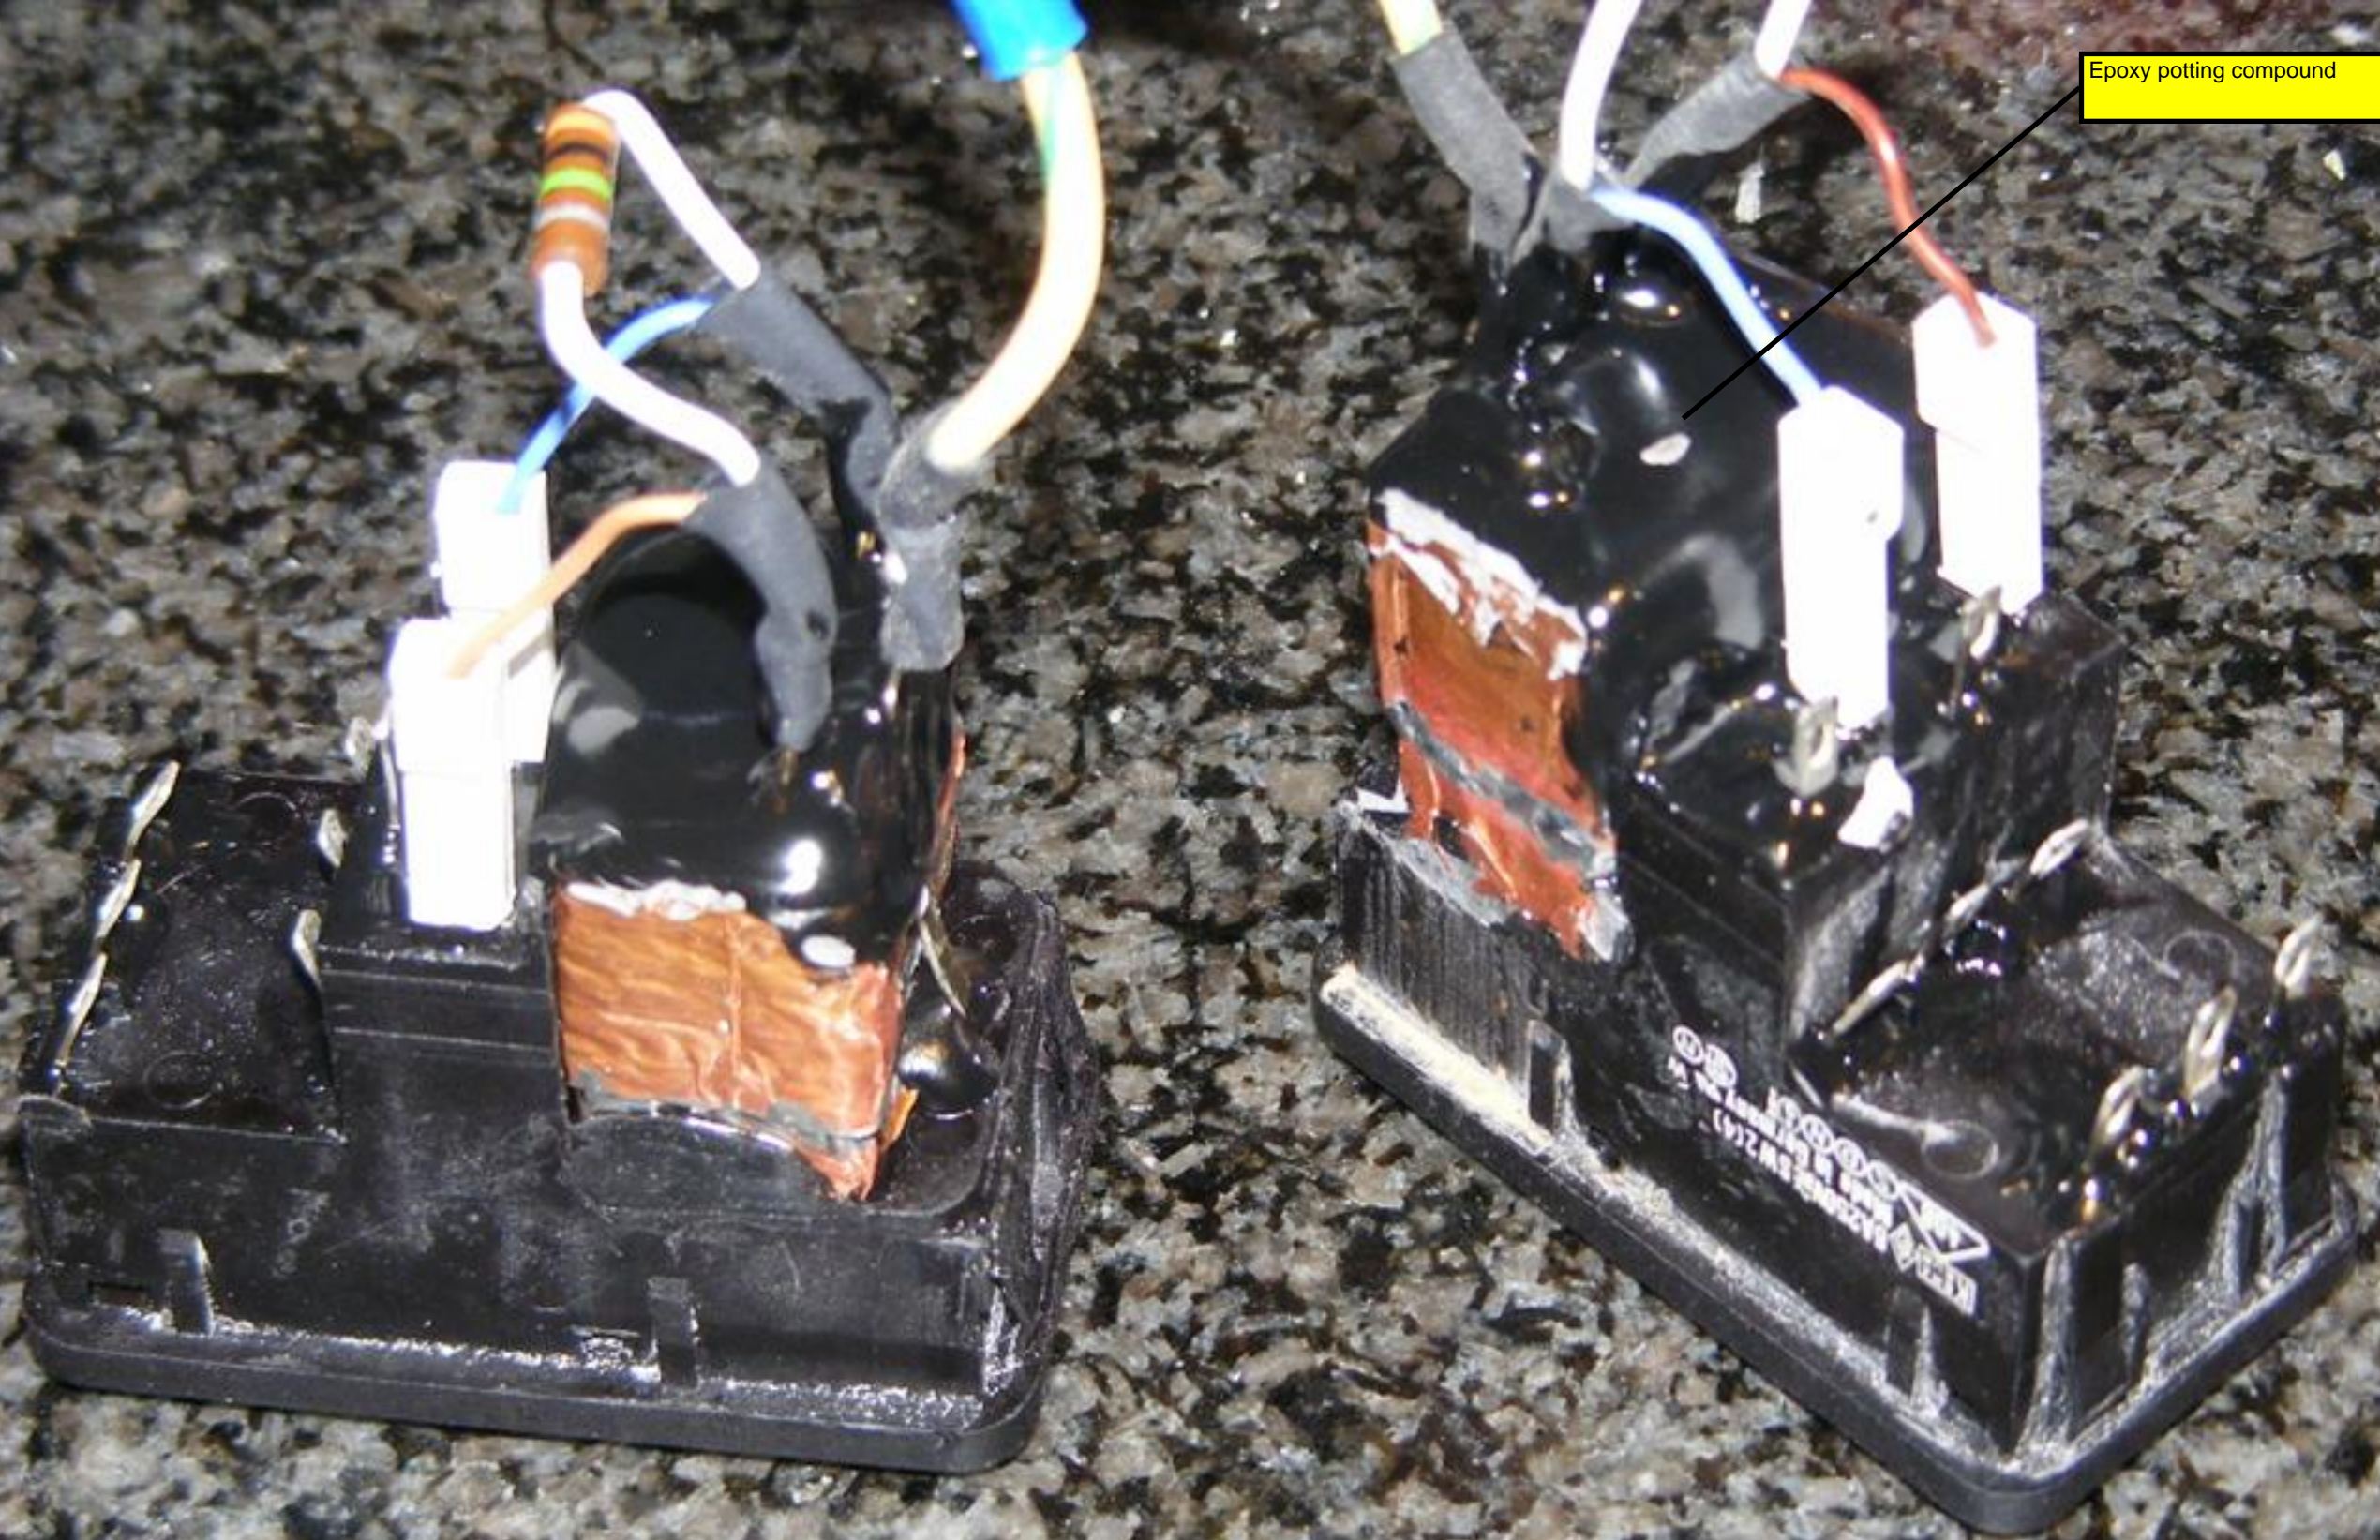

Here is one I prepared earlier

Epoxy potting compound

Finished.
